

**Brisbane City Locations** 

Winter is the perfect season to bushwalk in Brisbane. Rainfall drops to about 50mm per month and the temperature, in the middle of the day, is 22-25°C. To avoid high humidity in summer, travel up D'Aguilar Range towards Mt Nebo and Mt Glorious. The higher altitudes are 5° cooler in summer. However, be aware that Mt Glorious is 10° cooler in winter. So, always take extra clothing.
